PROFESSIONAL SUMMARY

Analytical and motivated B.Sc. Computer Science graduate with hands-on project experience in SQL, Python, and Power BI. Skilled in data cleaning, analysis, and dashboard development, with a strong interest in turning data into meaningful insights. Eager to learn and contribute to data-driven decision-making.

TECHNICAL SKILLS

Programming: C, C++, Python, Java, SQL
Databases: MySQL, PostgreSQL
Tools / Platforms: Power BI, VS code, GitHub

PROJECTS

Fraud Detection & Streaming Analytics | Python, MySQL, Power BI

- Cleaned and analysed credit card transaction data using Python and Pandas, removing duplicate records and validating transaction counts.
- Implemented rule-based fraud detection using transaction amount thresholds of ₹100 and ₹1,000.
- Performed data validation across Python and MySQL by verifying row counts, class distributions, fraud rates, and confusion-matrix metrics.
- Built interactive Power BI dashboards to visualize transaction patterns, fraud detection results, and simulated batch-processing metrics.

Network Packet Log Analytics & Visualization | Python, MySQL, Power BI

- Analyzed network packet logs using Python (Pandas and Matplotlib) to explore traffic patterns and protocol distribution.
- Used MySQL queries to validate data quality and identify high-volume source–destination IP pairs. And Developed Power BI visualizations to compare network protocols, packet counts, traffic volumes, and duration metrics.
- Derived insights into network traffic distribution and high-volume data transfers to support performance monitoring.

EDUCATION

Madras University **2026 | Chennai, Tamil Nadu**
Bachelor of Science (B.Sc.) in Computer Science
Core Computer Science Percentage: 76%

COURSES & CERTIFICATIONS

Naan Mudhalvan — Data Analyst Training Program
Naan Mudhalvan | Infosys — Object-Oriented Programming (OOP) Using Python
Naan Mudhalvan | IBM SkillsBuild — Problem-Solving Skills
MYFSCS (My First Step Computer Skills) — Python Programming Course
